

## **ROBIN JACKS**

### **EMPLOYEE OF THE MONTH JUNE 2008**

Robin Jacks is the backbone of the Fire Prevention office. She keeps the place running smooth even when it gets extremely busy. Robin always has the answer or knows how to solve the problem.

I'm sure you all remember Oliver Moore. When Oliver left our office, Robin Jacks immediately picked up the slack and handled many of the phone calls and other things Oliver did daily. Since then, we have also lost Ted Itchon, who did plans review for our office. Again, Robin stepped in and has been the go between for us and the building department. Robin has done this as well as her normal duties without complaint. Our office has not only stayed on top of things, despite our personnel losses, but has moved forward with many of our projects thanks to Robin.

We strongly believe that Robin deserves the employee of the month award. We feel she is very deserving due to all of the extra effort she puts forth everyday.
